

# Joint Action Health Equity Europe

# JAHEE aims and objectives

## General objective

The general objective of the Joint Action Health Equity Europe (JAHEE) is to contribute to achieve greater equity in health outcomes across all groups in society in all participating countries and in Europe at large and to reduce the inter-country heterogeneity in tackling health inequalities. JAHEE will also include a specific focus on migrants and vulnerable groups.

## Specific objectives

JAHEE aims to contribute to:

- improve the planning and development of the policies to tackle health inequalities at European, national, regional and local level;
- implement actions that provide the best opportunity to tackle health inequalities in each participating country;
- strengthen a cooperative approach in tackling health inequalities and facilitate exchange and learning among participating countries (sharing and learning approach);
- facilitate transferability of good practices.

# JAHEE participants

The partnership is composed of 25 Countries contributing with different background, expertise and know-how to the achievement of the project's goals. The partnership integrates some of the most strategically relevant public health institutions in the European Union (EU) as participants and/or collaborating key stakeholders.

# JAHEE structure: visual scheme

JAHEE will follow a three-step approach. In the first step, based on the best available knowledge, the five thematic WPs will develop a specific domain policy framework, while the WP4 will develop a general policy framework. At participating country level, an individual country profile template and five specific country assessments (for each thematic WP) will be elaborated. In the second step, the participating countries will implement a selection of actions to tackle health inequalities. In the last step, recommendations based on the best results achieved will be produced and disseminated.

# JAHEE management structure

- **General Assembly (GA):** responsible for laying out the strategic planning of the Joint Action in adherence to the Grant Agreement and Consortium Agreement
- **Steering Committee (SC):** delegate body for GA for day-to-day scientific and technical coordination
- **Scientific Advisory Board (SAB):** consultative body responsible for overseeing the overall aims and achievements of the Joint Action
- **Policy Advisory Board (PAB):** responsible for assessing the policy value of the Joint Action achievements
